The Thunder Bay Regional Health Research Institute (TBRHRI) - an independent, not-for-profit corporation - is the research arm of the Thunder Bay Regional Health Sciences Centre (TBRHSC). Research, innovation and learning are driven by the needs of our patients, our staff, and our communities.

In conjunction with the Northern Ontario Heritage Fund Corporation (NOHFC), we are currently seeking candidates for the following position:

Characterization Laboratory Research Assistant Internship – NOHFC #7402040 (1 Year Contract)

The individual filling this position will work closely with TBRHRI Scientists and their time will be devoted to the support and enabling of research. The Intern will support research related to Dr. Alla Reznik. The objective of the internship is to provide a trainee with hand on research and technical skills in a characterization laboratory setting.

The ideal candidate is highly dedicated and organized, with the ability to multitask in a fast-paced, diverse, and growing environment. Exceptional organizational and communication skills, along with strong quantitative, analytic and reasoning skills are necessary. This position requires knowledge in medical imaging and solid-state physics. Understanding of operating principles of computed tomography detectors on the system level is an asset. HBSc degree in Physics or Biophysics is desirable, although candidates from other related areas will also be considered. An individual is sought who can take initiative and who is interested in working in an interdisciplinary research environment.

This opportunity is proudly supported by Northern Ontario Heritage Fund Corporation and is funded through the Workforce Development Program. Eligibility requirements of the program can be found here:
<https://nohfc.ca/en/pages/programs/people-talent-program/workforce-development-stream>

To be considered for this position, please send your resume with a cover letter to:

Tanya Niederer, HR Coordinator
Thunder Bay Regional Health Research Institute
